Tessa Armstrong

Governor Bio

I have a longstanding connection with Colerne Primary School, having attended the school myself as a child from a Forces family. Both of my daughters also attended the school, with my youngest leaving in 2026. The school has been an important part of my family's life over the years.

My professional background spans the legal, charity, coaching and education sectors. I am the Founder and Executive Director of Voices for Life, a children's music and wellbeing charity working with primary schools across the region, and have extensive experience as a career and confidence coach. I am also Vice Chair of Wiltshire Music Centre.

Much of my professional work has focused on developing confidence, building self-esteem and enabling people to fulfil their potential. As a governor, I hope to draw on my experience to support the school in providing an environment in which all children can achieve and thrive.
