

## **DR. AMANDA HAYLLAR**

My husband and I moved to Colerne as we wanted to start and raise a family in a friendly and vibrant village community. Our eldest daughter has now moved onto secondary school but we still have a daughter in Key Stage 2 at the school. Both have benefitted from the fantastic varied opportunities and learning environment that the school offers.

I have a background in psychology, research and education. I have worked with children and young people for all of my adult life. I worked as a primary teacher for seven years and I then retrained as an Educational Psychologist. As part of my current role, I work in many schools in Swindon to help school staff and families with supporting children and young people with Special Educational Needs and Disabilities.

I am proud to be a Governor and celebrate the school ethos of making learning enjoyable, inspirational and exciting, as well as instilling values that will stand our children in good stead for the rest of their education.
